High Tech Take-Apart

Science in the Unmaking

E = mc² LASER Photon HDTV
LED Plasma Nanobot DVD

- **What does it do?**

What is your gadget used for?

Is it obsolete? What replaced it?

- **How does it do that?**

What simple machines are used?

Does it use gears, pulleys, belts?

Can you follow the chain of work?

- **What makes it go?**

How was it made?

Is it easy to take apart?

Was it easy to put together?

- **Could you make it better?**
